

How to get freedom: time & money! By John Martins

To bring your ambitions and desires to fulfillment, you must be successful with money.

Like the law of gravity, there are some laws you must respect to become wealthy, those laws are universal and unchanging.

What's the secret to creating true freedom, abundance and prosperity in your life? Well actually I believe we can create an abecedarian of freedom! Or at least that's how I came up with when I thought about that.

If you've been following me on [Twitter](#), you know I tweet some out from time to time.

I gonna share below with you some laws that I believe you must respect if you want to achive freedom:

- a) In life you only get what you picture.
- b) When your goals and dreams are bold, your current situation no longer matters.
- c) Your future doesn't need to be like your past.
- d) You are not a winner or loser, you are a chooser.
- e) You are a creator or a criticizer, you can choose to be one or other, but you can't be both.
- f) You are a lucky person if you use preparation to meet opportunity.

- g) You can have advisors or mentors.
- h) You can choose advisors like a friend, father, mother and grand-parents.
- i) You can choose a mentor like Michael Jordan to you become the best basketball player, Cristiano Ronaldo to you become the best soccer player or study rich people to become like they are, live and have what they have and you want too.
- j) You need to have the willingness to take action, and seize an opportunity when it presents itself.
- k) You need to be always vibrating in the state of love, peace, joy and gratitude.
- l) You can only have change and success if you put in the action.
- m) You need to prepare yourself for the next time “luck” comes around.
- n) For you have “luck” you need knowledge.
- o) For you have “luck” you need preparation.
- p) For you have “luck” you need perseverance.
- q) You need to be clear in what you ask and then get out the way and let it happen.

- r) You gonna understand abundantly clear that you'll almost always get what you want, but almost never in the way you expect it.
- s) You need to expect the unexpected and then roll with it.
- t) You need to understand that time is more valuable than money.
- u) You need to be better in your life so your life become easier.
- v) You need to become an attractive person so you can attract freedom.
- w) You were born dumb, naked and speechless.
- x) You were born to be healthy, happy, and free.
- y) You need to have a plan, a bad plan is still always better than no plan at all.
- z) In life you don't get what you want, you get what you are.

In every study of successful people, the acceptance of personal responsibility seems to be the starting point. Before that, nothing happens. After you accept complete responsibility, your whole life begins to change.
